TITLE <b>UNKNOWN SUBJECT, wa JOHN; THOMAS L. BLACK, INFORMANT-</b>			CHARACTER OF CASE <b>ESPIONAGE - R</b>

THOMAS L. BLACK, an admitted Soviet espionage agent, advised that during 1939-1940 he was in contact with a Soviet superior known to him only as JOHN. JOHN was chiefly interested in BLACK's work in the SOCIALIST WORKERS PARTY and pressured BLACK to join TROTSKY's household at Coyoacan, Mexico. Description set out.

## DETAILS:

AT PHILADELPHIA, PA.

100-61847-X

During the interviews with THOMAS L. BLACK conducted by Special Agents ROBERT W. HOLMES and WILLIAM B. WELTE, Jr., the following information concerning JOHN was furnished by BLACK who identified him as his Soviet superior.

JOHN was BLACK's contact for a short time following Dr. SCHWARTZ in 1939, as nearly as BLACK can remember. BLACK has pointed out that in this period he met several contacts for brief periods of time and is unable to say definitely what the sequence was. To the best of his recollection, however, JOHN followed Dr. SCHWARTZ. It should be noted that JOHN was in turn followed by KARL and then reappeared briefly after KARL. JOHN's chief interest appeared to have been in the SOCIALIST WORKERS PARTY and aside from that interest, BLACK recalls little about him except that JOHN continued to put pressure on BLACK to make some effort to fulfill the Mexico City assignment. BLACK was able to persuade JOHN that his injury was not recovering rapidly enough to make the trip possible.

Philadelphia File #65-4377

JOHN is described by BLACK as follows:

Race:	White
Age:	Late 30's or early 40's
Height:	5'7" or 5'8"
Weight:	Approx. 150 lbs.
Build:	Thin
Hair:	Straight, black or very dark brown
Face:	Thin
Eyes:	Brown
Complexion:	Dark
Clothes:	Dressed in conservative clothes, with gaudy ties

BLACK has said that JOHN had the facial appearance generally associated with a gangster, that is, that he was a hard-looking person. He displayed an interest in shooting galleries, pinball machines, and generally in the amusement centers that are operated along 42nd Street in New York City. He appeared to have some education and from his appearance BLACK guessed that he might have been a Sicilian, but has no definite knowledge that this was so. BLACK was unable to identify JOHN from any available photograph.

BLACK stated that JOHN spoke with an accent. He never made any mention of a family being with him in this country and when he indicated to BLACK that he was leaving, he indicated that he was leaving the east coast and left the impression with BLACK that he might possibly be going to work on the west coast. The entire time that JOHN handled BLACK, JOHN was interested in Trotskyite information and had no interest in industrial espionage.

SUBJECT: UNKNOWN SUBJECT, wa. John;  
THOMAS L. BLACK, INFORMANT  
ESPIONAGE - R  
(Bufile 65-59452)

DATE: January 12, 1951

On December 27, 1950, LOUIS BUDENZ and MARGARET BUDENZ stated that a photograph of ADOLPH RABINOWITZ was believed to be identical with one "MICHAELS", a Soviet agent with whom BUDENZ worked in 1937. BUDENZ and his wife stated that they believed it was a positive identification, but they would not be willing to testify on a witness stand that ADOLPH RABINOWITZ was identical with "MICHAELS".

In view of the fact that "MICHAELS" was interested in the Trotskyite movement, it is felt that "MICHAELS" may be identical with THOMAS L. BLACK principals JOHN or CARL.

It will be noted that both LOUIS BUDENZ and THOMAS L. BLACK have identified a photograph of Dr. GREGORY RABINOVICH as the individual BUDENZ knew as "ROBERTS" and BLACK knew as "Dr. SCHWARTZ". Accordingly, it is felt that ADOLPH RABINOWITZ may be identical with unknown subject JOHN or unknown subject CARL.

A photograph of ADOLPH RABINOWITZ is being forwarded to the Philadelphia Office, and it is requested that it be displayed to THOMAS L. BLACK.

REBULET to New York, 12/1/50, and NILET to Bureau, 1/12/51.

On January 22, 1951, THOMAS L. BLACK was shown three photographs of FRANK JACSON. BLACK had previously been shown the early photograph of JACSON but had not seen the two photographs taken in 1949. He said that he did not recognize the person in any of the three photographs and was certain that the photographs were not of either KARL or JOHN who were Soviet contacts of BLACK.

On the same date, BLACK was shown photographs of ADOLPH RABINOWITZ, identified by LOUIS and MARGARET BUDENZ as being identical with MICHAEL.

BLACK said that RABINOWITZ was definitely not KARL.

BLACK said that there is a very slight resemblance to JOHN in the photographs of RABINOWITZ, but he does not believe they are identical. He pointed out that RABINOWITZ has a broader nose than JOHN and not as straight. RABINOWITZ has less hair than JOHN had. RABINOWITZ has a wider chin and larger mouth than JOHN; their heads are shaped the same.

In connection with Unknown Subject JOHN, the interviewing agent reviewed with BLACK a Bureau booklet entitled "Personal Descriptions, Portrait Parle or Speaking Likeness," and had BLACK pick out the facial characteristics shown in this booklet which were similar to JOHN. He gave the following information:

Forehead:

Between medium and vertical slope  
Low  
Narrow  
Few broken horizontal wrinkles  
Rounded V hairline.

NY 65-15415

A review of the FELDMAN-OVAKIMIAN case file was made in an effort to turn up suspects for the unknown subject SCHE. This review resulted in a possible suspect; namely, PETER DAVIDOVICH GUSEV.

Confidential Informant T-2, of known reliability, furnished information about this suspect to the effect that he was known to ARMAND JARIS FELDMAN.

The informant stated that GUSEV was one of FELDMAN's espionage superiors during the period that FELDMAN was acting as a Soviet agent in the United States, namely, 1933 to 1938. GUSEV was Vice Consul attached to the Soviet Consulate, New York City, from approximately 1934 to 1938.

There is no photograph available of GUSEV.

GUSEV was in close touch with OAK B. OVAKIMIAN and the informant believed that GUSEV may have been above OVAKIMIAN in the espionage setup.

It was also known to the informant that in May 1938

The informant stated that GUSEV seemed to have a great deal of knowledge about the Russians' anti-Trotsky activities. b7d

A description of GUSEV as furnished by the informant is as follows:

Age:	About 40 in late 1930s
Height:	5' 5" or 5' 6"
Hair:	Dark, grayish black
Complexion:	Dark and yellowed
Build:	Medium
Remarks:	Quiet and unassuming manner
Language Ability:	Speaks "beautiful" Russian; had a speaking knowledge of German and spoke English poorly.

NY 65-15415

Origin:  
Dress:

Possibly from the Ukraine  
Well dressed, wore brown  
gabardine topcoat

Marital Status:

Married - wife, possibly  
named HELEN, was a specialist  
in photography.

Some of the informant's impressions about GUSKY were that he appeared to be well educated, displaying an analytical brain. He had some kind of stomach trouble. He had a "Greek-appearing face".

On January 22, 1951, THOMAS L. BLACK was shown a photograph of an individual known as ADOLPH RABINOWITZ. LOUIS BUDENZ and his wife had previously identified RABINOWITZ as being identical with one MICHAELS. BLACK said that the photograph of RABINOWITZ bore a slight resemblance to JOHN, but he does not believe they are identical.

BLACK was also shown a photograph of FRANK JACSON on the same date and advised that JACSON was not the unknown subject JOHN.

The file on FRANK JACSON, the slayer of LEON TROTSKY, was also reviewed with the idea in mind that JOHN may have been associated with some of the individuals whose names came up in the course of the investigation of JACSON. JOHN'S chief interest appeared to have been in the Socialist Workers Party and he attempted to persuade BLACK to obtain a job in TROTSKY'S household. Since JACSON penetrated the Socialist Workers Party and murdered TROTSKY on August 20, 1940, it is believed that JACSON may have been a member of the same espionage parallel as JOHN.

The review of the JACSON file was mainly concerned with ascertaining the identity of individuals who answered the description of JOHN and who were in New York City in 1939 and 1940. In this connection, CONWAY

65-61847-K11

NY 65-15415

DAVIES, who was residing at 829 Island Court, Mission Beach, San Diego, California, in 1940 is being considered a suspect.

It will be recalled that shortly after BROZSKY's death, a trunk belonging to JACSON was examined by Agents of the New York Office. Although the trunk contained mostly clothing, there was found in it a post card addressed to M. MASLOW, Legaria 83, Tacuba, Mexico, D.F. The card bore the return address of CONWAY and SARAH DAVIES, 5549 Virginia Avenue, Hollywood, California. The text of the post card indicated that CONWAY and SARAH DAVIES were leaving San Francisco on January 1, 1940 for Hollywood and would go from there to the rancho at Escondido.

The report of SA (A) E. F. HAIR, dated September 14, 1946 at Los Angeles, entitled "FRANK JACSON, was; ESPIONAGE", reflects an interview with MARICE GORDON, brother-in-law of CONWAY DAVIES. At that time Mr. GORDON stated that CONWAY DAVIES married GORDON'S sister, SARITA, in about 1933. He stated that CONWAY DAVIES was an ornamental iron worker.

GORDON further stated that in about 1935 CONWAY and SARAH DAVIES went to New York City to live. According to GORDON, while living in New York City there was no correspondence between them and he did not know where they lived or worked and has no idea as to their activities in New York City. He stated that they returned to California in 1939. Mr. GORDON stated that at that time DAVIES was about forty-two to forty-five years of age and was residing at 829 Island Court, Mission Beach, California, and was employed at Consolidated Aircraft Company in San Diego, California.

The files of this office failed to reflect whether CONWAY and SARAH DAVIES were ever interviewed in connection with the JACSON case. It is realized that there is little information presently available which would indicate that CONWAY DAVIES is identical with the unknown subject JOHN. However, it is believed significant

65-61847-K11

NY 65-15415

that FRANK JACSON, of whom little is known even though he received world-wide publicity, had a post card in his possession which was sent by CONWAY and SARAH DAVIES.

It is also noted that THOMAS BLACK advised that when the unknown subject JOHN told him he was leaving in 1939 or 1940, he indicated to BLACK that he was leaving the East Coast and left the impression with BLACK that he might possibly be going to work on the West Coast.

For the information of the San Diego Office, THOMAS L. BLACK, a confessed Soviet espionage agent, advised that an individual named JOHN was his Soviet principal for a short period of time in 1939 or 1940. According to BLACK, JOHN'S chief interest appeared to be in the Socialist Workers Party and aside from that interest BLACK recalls little about him except that JOHN attempted to persuade BLACK to obtain a job in THOMAS'S household.

JOHN is described by BLACK as follows:

Race:	White
Age:	In late thirties or early forties in 1939
Height:	5' 7" or 8"
Weight:	Approximately 150 lbs.
Build:	Thin
Hair:	Straight, black or very dark brown
Face:	Thin
Eyes:	Brown
Complexion:	Dark
Clothes:	Dressed in conservative clothes with gaudy ties

BLACK said that JOHN had the facial appearance generally associated with a gangster; that is, he was a hard-looking person. He displayed an interest in shooting galleries, pinball machines, and generally was found in

65-61847-K11

NY 65-15415

the amusement centers that are operated along 12d Street, New York City. JOHN appeared to have some education and from his appearance, BLACK guessed that he might have been a Sicilian, but has no definite knowledge that this is so.

A review of the FELDMAN-OVAKIMIAN case file was made in an effort to turn up suspects for the unknown subject JOHN. This review resulted in a possible suspect, namely, PETER DAVIDOVICH GUSEV.

Confidential Informant T-2, of known reliability, furnished information about this suspect to the effect that he was known to ARMAND JACQUES FELDMAN

The informant stated that GUSEV was one of FELDMAN'S espionage superiors during the period that FELDMAN was acting as a Soviet agent in the United States, namely, 1933 to 1938. GUSEV was Vice Consul attached to the Soviet Consulate, New York City, from approximately 1934 to 1938.

There is no photograph available of GUSEV.

GUSEV was in close touch with GAIK B. OVAKIMIAN and the informant believed that GUSEV may have been above OVAKIMIAN in the espionage setup.

It was also known to the informant that in May 1938

[REDACTED] The informant stated that GUSEV seemed to have a great deal of knowledge about the Russians' anti-Trotsky activities, b7d.

A description of GUSEV as furnished by the informant is as follows:

Age:	About 40 in late 1930s.
Height:	5' 5" or 5' 6"
Hair:	Dark, grayish black
Complexion:	Dark and yellowed
Build:	Medium
Remarks:	Quiet and unassuming manner
Language	
Ability:	Speaks "beautiful" Russian; had a speaking knowledge of German and spoke English poorly.

65-61847-41

NY 65-15415

Origin: Possibly from the Ukraine  
Dress: Well dressed, wore brown  
gabardine topcoat  
Marital Status: Married - wife, possibly  
named HELEN, was a specialist  
in photography

Some of the informant's impressions about GUSEV were that he appeared to be well educated, displaying an analytical brain. He had some kind of stomach trouble. He had a "Greek-appearing face".

On January 22, 1951, THOMAS L. BLACK was shown a photograph of an individual known as ADOLPH RAPINOWITZ. LOUIS EUDENZ and his wife had previously identified RAPINOWITZ as being identical with one MICHAELIS. BLACK said that the photograph of RAPINOWITZ bore a slight resemblance to JOHN, but he does not believe they are identical.

BLACK was also shown a photograph of FRANK JACSON on the same date and advised that JACSON was not the unknown subject JOHN.

The file on FRANK JACSON, the slayer of LEON TROTSKY, was also reviewed with the idea in mind that JOHN may have been associated with some of the individuals whose names came up in the course of the investigation of JACSON. JOHN'S chief interest appeared to have been in the Socialist Workers Party and he attempted to persuade BLACK to obtain a job in TROTSKY'S household. Since JACSON penetrated the Socialist Workers Party and murdered TROTSKY on August 20, 1940, it is believed that JACSON may have been a member of the same espionage parallel as JOHN.

The review of the JACSON file was mainly concerned with ascertaining the identity of individuals who answered the description of JOHN and who were in New York City in 1939 and 1940. In this connection, CONWAY

65-61847-X11

NY 65-15415

DAVIES, who was residing at 829 Island Court, Mission Beach, San Diego, California, in 1940 is being considered a suspect.

It will be recalled that shortly after TROTSKY'S death, a trunk belonging to JACSON was examined by Agents of the New York Office. Although the trunk contained mostly clothing, there was found in it a post card addressed to B. MASLOW, Legaria 83, Tacuba, Mexico, D.F. The card bore the return address of CONWAY and SARAH DAVIES, 5549 Virginia Avenue, Hollywood, California. The text of the post card indicated that CONWAY and SARAH DAVIES were leaving San Francisco on January 1, 1940 for Hollywood and would go from there to the rancho at Escondido.

The report of SA (A) E. P. HAIR, dated September 14, 1940 at Los Angeles, entitled "FRANK JACSON, was; ESPIONAGE", reflects an interview with MAURICE GORDON, brother-in-law of CONWAY DAVIES. At that time Mr. GORDON stated that CONWAY DAVIES married GORDON'S sister, SARITA, in about 1933. He stated that CONWAY DAVIES was an ornamental iron worker.

GORDON further stated that in about 1935 CONWAY and SARAH DAVIES went to New York City to live. According to GORDON, while living in New York City there was no correspondence between them and he did not know where they lived or worked and has no idea as to their activities in New York City. He stated that they returned to California in 1939. Mr. GORDON stated that at that time DAVIES was about forty-two to forty-five years of age and was residing at 829 Island Court, Mission Beach, California, and was employed at Consolidated Aircraft Company in San Diego, California.

The files of this office failed to reflect whether CONWAY and SARAH DAVIES were ever interviewed in connection with the JACSON case. It is realized that there is little information presently available which would indicate that CONWAY DAVIES is identical with the unknown subject JOHN. However, it is believed significant.

65-6847-X11

NY 65-15415

that FRANK JACSON, of whom little is known even though he received world-wide publicity, had a post card in his possession which was sent by CONWAY and SARAH DAVIES.

It is also noted that THOMAS BLACK advised that when the unknown subject JOHN told him he was leaving in 1939 or 1940, he indicated to BLACK that he was leaving the East Coast and left the impression with BLACK that he might possibly be going to work on the West Coast.

For the information of the San Diego Office, THOMAS L. BLACK, a confessed Soviet espionage agent, advised that an individual named JOHN was his Soviet principal for a short period of time in 1939 or 1940. According to BLACK, JOHN'S chief interest appeared to be in the Socialist Workers Party and aside from that interest BLACK recalls little about him except that JOHN attempted to persuade BLACK to obtain a job in TROTSKY'S household.

JOHN is described by BLACK as follows:

Race:	White
Age:	In late thirties or early forties in 1939
Height:	5' 7" or 8"
Weight:	Approximately 150 lbs.
Build:	Thin
Hair:	Straight, black or very dark brown
Face:	Thin
Eyes:	Brown
Complexion:	Dark
Clothes:	Dressed in conservative clothes with gaudy ties

BLACK said that JOHN had the facial appearance generally associated with a gangster; that is, he was a hard-looking person. He displayed an interest in shooting galleries, pinball machines, and generally was found in

65-61-847-XI

NY 65-15415

the amusement centers that are operated along 12d Street,  
New York City. JOHN appeared to have some education and  
from his appearance, BLACK guessed that he might have been  
a Sicilian, but has no definite knowledge that this is so.

Reurlet 8-24-51 requesting that this case be

[REDACTED]

The files further disclosed that Elizabeth Bentley  
has advised that Jacob Golos, known Soviet agent, told her  
that Napoli worked for him. Golos did not discuss the  
nature of the work.

It is noted that Napoli's description generally  
fits that of Oneub John. Napoli was born in the United  
States; is of Italian extraction, and stayed in Italy from  
1914 to 1924. Napoli was single in 1939 and 1940. He  
divorced his first wife in 1930 and remarried in 1941. It  
is noted that Napoli made trips to the West Coast in con-  
nection with his business; however, it is not known if he  
made such trips in 1939 and 1940.

In light of the above, Philadelphia should exhibit  
a photograph of Napoli, which is enclosed herewith, to  
Informant Thomas L. Black. (100-301458)

Your attention is directed to NYC file 65-14783 in the  
case entitled "Gregory Zorich Rabinovitch", was; Espionage -  
R" and to NYC report of SA William J. McCarthy, 8-18-48. This  
report reveals that Frank Lavern Palmer was instrumental in  
introducing Louis Budenz into Soviet espionage activity in  
about 1938. Rabinovitch was Budenz's Soviet superior from  
about 1937 to 1939. Palmer is currently being interviewed  
by the Pittsburgh Division. One copy of NYC report of SA

Subject, Ed John, Thomas L. Black & Informant, Espionage & R" is being enclosed herewith for the Pittsburgh division. Since Palmer was interested in Trotskyite infiltration he was Unsub John, Pittsburgh is instructed to question Palmer about Unsub John to determine if he is able to identify Unsub John.

A lead has been set out by the New York division to the Raymond David Franklin, Espionage & R case for the Philadelphia division to exhibit a photograph of Franklin to Black. It is believed that Franklin should be considered a candidate for Unsub John in view of Franklin's close association with Radinovitch plus the fact that Franklin is known to have been the espionage superior of James Olin York in 1938 and again in 1940.

Your attention is directed to NYC file 100-54516 in the case entitled "Martin Young, was; Internal Security & C" and to the report of SA R. Campbell Carden 11-4-43. The description of Young set out on page 5 meets many of the descriptive qualifications of Unsub John. It is noted that Young is related by marriage to Joseph Katz, known Soviet agent. NYC should forward a photograph of Martin Young to Philadelphia for exhibition to Black as a candidate for Unsub John.

(100-54516)

When the above investigation has been completed, NYC may again request Bureau authority to close this case, providing no logical leads are outstanding.

UNKNOWN SUBJECT, [REDACTED] b7D

ESPIONAGE - R

NY file 65-15700

As you will recall, [REDACTED] was first interviewed by the New York City office [REDACTED]. The report of SA Richard E. Brennan, 8-18-51, in the Unsub John Case and the same agent's report in the Unsub [REDACTED] case, 8-31-51, revealed that about 4000 photographs of various Russian espionage agents and Soviet Nationals have been shown to [REDACTED] in order to effect an identification of the unknown subjects of above-captioned cases.

[REDACTED] believes that [REDACTED] was probably a Russian and that [REDACTED] was [REDACTED] b7D

It is realized that it is often difficult to recognize a person from a photograph, especially if many years have elapsed since the photograph was taken and the time of viewing of the photograph.

It is also realized that subjects in the early stages of interview may possess nervous tension which would interfere with their most effective powers of observation of photographs. It is particularly noted [REDACTED] was known to be a highly emotional individual possessing an unstable temperament.

The ultimate identification of [REDACTED] will in all probability come about by [REDACTED] recognizing a photograph of each person.

RECORDED - 118 AUG 28 1951

The NYO division is instructed to arrange for [REDACTED] to appear at the New York office and spend a reasonable amount of time re-viewing the photographs shown to him in the past. New York agents should arrange for as many meetings with [REDACTED] as necessary to insure that he affords this project.

In view of the many photographs of known Soviet agents and Soviet officials in the possession of the New York office, it is believed reasonable that the photograph of one or both of the above-captioned unknown subjects may already be in your possession.

Investigation of the Rabinovitch case has revealed that Rabinovitch was the Soviet espionage superior of at least 9 persons during the time he was in the U. S.; 1934-1939. During this period, he also was the Director of the Russian Red Cross in the U. S.

A review of Bufiles failed to reveal that the staff of the Russian Red Cross in the U. S. in the 1930's is known. It is believed logical that Rabinovitch may have used other persons connected with the Russian Red Cross in carrying out his espionage work, possibly as contacts for meetings he could not keep himself, or possibly to carry out his contacts after he left the U. S.

Thomas L. Black and [REDACTED] are two of the individuals operated by Rabinovitch. As you are aware, both Black and [REDACTED] have confessed their espionage activities. b7d

In both the Black and [REDACTED] cases, there are unknown Soviet superiors yet to be identified. Several of these unknown Soviet superiors immediately followed Rabinovitch in element of time as the respective espionage superiors of Black and [REDACTED] b7d

Re: Report of SA NORMAN E. BLISS, 9/29/51, at New York.

[redacted] has recently reviewed all photographs of Russian officials and espionage agents available in the New York office without effecting an identification of [redacted]. [redacted] selected a photograph of CONSTANTIN LISSITZYN as bearing considerable similarity to [redacted] except for the hair of which there is too much and the eyes which should be slightly more squinted. [redacted] expressed the opinion that if an artist's conception could be made copying LISSITZYN's features below the eyes, the forehead and hairline of ALEKSANDR STOROZHENKO and the eyes of MIKHAIL DEVIATYAROV, a reasonable likeness of [redacted] may be expected. b7d  
Photographs of the above mentioned three individuals are enclosed and it is requested that a Bureau artist attempt to draw [redacted] as suggested above.

For further possible aid in preparing this drawing a physical description of [redacted] as provided by [redacted] follows: b7d

Nationality	Probably Russian.
Age	40-45 (in about 1942)
Height	5' 5" to 5' 7"
Weight	Approximately 135
Hair	Probably brown. [redacted] said [redacted] was almost completely bald on top of his head and that what hair remained was on the sides of his head. b7d
Eyes	Probably brown, usually smiling in what [redacted] described as a squinting but pleasant smile

[REDACTED] was shown both artist's conceptions of the unknown subject which were made up at the Bureau. He advised that the enclosed picture is an excellent likeness of the unknown subject and said he could suggest only three slight changes which would make it conform exactly to his recollection of [REDACTED]. They are as follows: b7d

- (1) The entire head from a point opposite the mouth on up should be narrowed very slightly, inasmuch as [REDACTED] face was slightly narrower than the drawing.
- (2) It would help if a slight suggestion of a smile could be added around the mouth because of the fact [REDACTED] was a friendly person who was actually smiling much of the time and was not quite as stern as the drawing depicts.
- (3) [REDACTED] suggested that the lower part of the face should not be shadowed [REDACTED] was always a clean-shaven man. b7d

[REDACTED] stated that in his opinion changes number one and two, above, should be very slight because of the fact that the drawing as it now exists is remarkably similar to the appearance of [REDACTED]. b7d

[REDACTED] remarks concerning the other artist's conception were to the effect that although it is similar to the first drawing, it does not come nearly so close to resembling [REDACTED] and it is not being enclosed with this letter. b7d

It is requested that the above-mentioned three changes be attempted at the Bureau and the results forwarded to this office for examination by [REDACTED]. It is also requested that the enclosed photograph be returned at that time. b7d

Reference is made to New York letter dated January 14, 1952, which furnished a critique of previous artist's conceptions furnished to New York by the Cartographic Section of the Bureau.

Attached hereto are two copies of a revised artist's conception of the unknown subject prepared along the lines suggested in referenced letter.

The lower face of the artist's conception has been lightened according to your suggestion; however, the Cartographic Section is of the opinion that any further efforts to lighten the face may interfere with the likeness of the conception to the subject.

The piercing eyes of the artist's conception tend to give the face an appearance of hardness. No efforts were made to alter the eyes. If [redacted] believes that alteration of the eyes would improve the conception, efforts will be made to change it according to his critique. b7d

The new artist's conception should be exhibited to [redacted] for his comments and criticism. New York should promptly advise the Bureau of the results. b7d

**SYNOPSIS OF FACTS:**

[REDACTED] reviewed latest Artist's conception of [REDACTED] and furnished criticisms which are set out. Photographs of Russians displayed to [REDACTED] who could not identify any of them. *b7d*

**DETAILS: At New York, New York:**

The latest artist's conception dated February 7, 1952, was displayed to [REDACTED] who made the following comments: *b7d*

1. The informant did not feel that any change in the area of the eyes or mouth is necessary.
2. [REDACTED] now feels that it would improve the drawing if the ears could be set slightly closer to the head. *b7d*
3. The lightened lower face has improved the similarity to the coloring of [REDACTED] face; but in the process of removing the shadowing [REDACTED] feels the chin has been given a more narrow or pointed appearance and appears slightly longer. This detracts from the overall similarity to [REDACTED] according to the informant. He stated that in his opinion the chin of the first drawing was of proper shape and requested that an effort be made to regain that shape while maintaining the lighter coloration of the latest drawing. *b7d*

Unknown Subject, aka John  
THOMAS L. BLACK - INFORMANT  
ESPIONAGE - R

Reurlet April 3, 1952, requesting authority to close  
instant case.

Your attention is directed to New York file 100-7518  
entitled "Russian Red Cross, Internal Security - R." New York is  
office of origin in that case and efforts are being made to  
reconstitute the structure of the Russian Red Cross in the United  
States prior to 1941. You will recall that Gregory L. Rabinovitch,  
the superior of Thomas L. Black, prior to unknown subject John was  
the Director of the Russian Red Cross in the United States until he  
departed for Russia in September 1939. It is possible that  
Rabinovitch used persons connected with the Russian Red Cross to  
assist him in his espionage operations or to carry on after he left  
the United States.

New York is requested to place the unknown subject John  
case in a pending inactive status rather than a closed case until  
the Russian Red Cross case has been more fully developed. If the  
identities of individuals connected with the Russian Red Cross can  
be ascertained, their photographs should be exhibited to Black as  
candidates for unknown subject John.

The residence of Leon Kalditch, 101 West 78th Street New York City, is in the general vicinity of 72nd and Broadway, the location where the unknown subject may have lived.

As New York has previously been advised in the Joseph

Katz' mistress, Rebecca

of 1941. (b) 2 (2)

Walditch entered the United States in January 1941 and became a United States citizen May 12, 1947. He was in the United States during the pertinent period of instant case.

 ESPIONAGE-R [REDACTED]

DATE: 6/26/52

Enclosed are five copies of the report of SA NORMAN E. BLISS, New York, dated 6/20/52, which sets forth the fact that [REDACTED] was shown the most recent artist's conception [REDACTED] which was based upon revisions to ears and chin as suggested by [REDACTED]. It is now [REDACTED] opinion that the previous drawing made up by the Cartographic Section on February 7, 1952, was as close to the appearance [REDACTED] as can reasonably be expected, and the changes which have been effected in the most recent drawing, in April, 1952, have detracted from the resemblance.

It is therefore suggested that the Bureau make up one dozen copies of the February drawing and forward same to New York, along with one copy of the negative of instant drawing which could be used by New York, in the event that the additional copies are needed at a later date.
